Professor of Book-keeping, Stenography and Typewriting.

J. M. PERRY,
Professor of Penmanship.

MRS. ELLIS C. BEDELL,
Academic Department.

MISS NANNIE WITHERSPOON THORNWELL,
Primary Department.

MISS MARY McGOWAN,
Domestic Science.

*To be supplied.

Chicora College

Historical

Chicora College was organized in August, 1893, under the auspices of the three Presbyterian churches of Greenville. Rev. J. F. McKinnon was Principal from 1893 to 1895, and Rev. S. R. Preston, D. D., from 1895 to 1898. In 1898 the institution failed and was reorganized by Dr. Preston as a stock company, and was so conducted by him until 1906.

In the spring of 1906, a majority of the stock of the College was offered for sale to the Presbyteries of Bethel, Enoree and South Carolina, of the Synod of South Carolina, on condition that the remaining stock be secured by the Presbyteries. The offer was accepted and Trustees were appointed to secure a charter, to consummate the action of the Presbyteries and to govern and control the College until their next regular meeting. "The Board of Trustees of Chicora College" was chartered May 30, 1906, and the transaction by which the College became the property of the Presbyteries was consummated on June 1, 1906, a majority of the stock being purchased for \$30,500.00 and the remainder being secured by donation. Those who generously donated their stock were Mr. H. F. Means, Mrs. M. J. Means, Mr. C. E. Graham,

Dr. C. C. Jones, Capt. O. P. Mills and the First Presbyterian Church of Greenville.

The Board elected to the Presidency of the College the Rev. S. C. Byrd, D. D., who assumed the duties of the office June 1, 1906.

It being the desire and purpose of the three owning and controlling Presbyteries to have associated with themselves the other three Presbyteries of the Synod of South Carolina, they, in the fall of 1906, overtured the Presbyteries of Charleston, Harmony and Pee Dee to unite with them in the ownership and control of the College. These Presbyteries acted favorably upon the overture and the College is now owned jointly by the Presbyteries of Bethel, Charleston, Enoree, Harmony, Pee Dee and South Carolina, of the Synod of South Carolina in connection with the Presbyterian Church in the United States.

Control

The College is governed and controlled by a Board of Trustees appointed by the Presbyteries of Bethel, Charleston, Enoree, Harmony, Pee Dee and South Carolina of the Synod of South Carolina in connection with the Presbyterian Church in the United States, and incorporated under the laws of the State of South Carolina.

Purpose

The institution is a Presbyterian College. It is established, maintained and conducted for the purpose of promoting Christian education in

harmony with the Constitution of the Presbyterian Church in the United States.

The supreme aim of Chicora College is to make women; and its conception of womanhood is a graceful and vigorous body, a thoroughly disciplined mind, together with a high moral and spiritual character. We believe that Character is more important than mere intellectual Knowledge, and a trained Conscience more valuable than mere Education; hence while educating and imparting knowledge, we earnestly desire and endeavor to form Character and to train Conscience. The supreme question of life is **not intellectual, but spiritual**; is not what a woman **knows**, but what she **is**.. We hope to give to the Home, the Church, and the State, truly educated, Christian, womanly women.

Location

The College is located in the city of Greenville, S. C. This city is situated on the slope of the Blue Ridge Mountains, and is justly praised as the "Pearl of the Piedmont." It has a population of about 20,000, and is noted for its healthful and delightful climate. It has all the facilities and conveniences of a modern city—telegraph, telephone, gas, electric light, water-works, sewerage and electric street railway systems. The electric street car line passes the College, connecting it with the depots and all parts of the city. The sewerage system and water-works are said to be unsurpassed in the South.

The water is supplied from Paris Mountain, and is pronounced by the Government as among the purest and best of waters. The healthfulness of Greenville is demonstrated by the Government reports. Greenville is on the main trunk line of the Southern Railway from Washington to the Southwest, and is the terminus of the Columbia and Greenville, the Charleston and Western Carolina and the Atlantic Coast Line Railroads. It is, therefore, easy of access from all directions, and may be reached from almost any point in the State within a few hours.

Grounds

The site of the College—McBee Terrace—is in the centre of the city and comprises several acres, ornamented with majestic oaks, shrubbery and grassy lawn. The grounds are attractive and beautiful, commanding a fine view of the city, the river and the mountains. McBee Terrace is 995 feet above sea level.

Buildings

The buildings occupy a commanding eminence in the centre of the city, extending from Main street to Rhett street, 315 feet. They comprise the Administration Building, which contains the President's office, Library, Art Studio and Double Parlors; the Study Hall Building, with adjoining recitation and music rooms; the Dormitory Building, including dining room and other rooms in the Domestic Department, bath rooms with porcelain tubs and hot and cold wa-

ter; the Infirmary Building, with four large rooms furnished with modern sanitary conveniences; and the Auditorium, which is in shape an octagon, a beautiful room with a seating capacity of twelve hundred, containing pipe organ, opera chairs, etc.

All of these buildings are practically under one roof and connected, so that there is no exposure to weather. They are heated by steam and lighted by gas and electricity, and are commodious, comfortable and attractive.

Administration

The government of the College is that of a Christian home. Every feature is under the direct care of the President and his wife, whose earnest and constant endeavor is to promote the physical, mental and spiritual well-being of the pupils. The discipline is gentle but firm; and every effort is made to govern the girls by putting them on their honor and appealing to their sense of right, propriety and innate pride of true, noble, gentle womanhood. Such a watchfulness over the pupils is maintained as is prompted by affection and a sincere desire for their happiness, development and highest welfare. Honor and truth are inculcated, and only such rules as are needful for the orderly government of a large family are prescribed.

We hope to do for the daughters of others committed to us just what we would wish the

authorities of a College to do for our own daughter whom we might entrust to their care.

Religious

“That our daughters may be as corner stones, polished after the similitude of a palace.” Ps. 144:12. “For what shall it profit a man, if he shall gain the whole world and lose his own soul.” Mk. 8:36. Prominence is given to religious training and influence because “to glorify God and to enjoy Him forever” is the chief end of man. **Pro tempore et pro aeternitate.** Again, the character of the Church and State is determined by the Home Life of the people and **the women determine largely the Home Life.** The religious influence of the College is regarded by all connected with it as of the first importance. Singing, prayer and reading the Scriptures are a part of each day’s exercises, and all the students are required to attend these devotional services.

Boarding pupils are required to attend Sabbath School and Church services every Sabbath.

A Westminster League has been organized and does invaluable service in drawing the students together and developing them in Christian work and study. It is under the immediate supervision of the President and his wife, and the lady members of the Faculty belong to it and take a part in its activities. Weekly devotional meetings are held. The League supports an orphan girl in the Thornwell Orphanage.

While the institution is denominational and the President and his associates are solicitous to bring the pupils under the influence of evangelical religion, yet no narrow sectarianism is disseminated. Several denominations patronize the college, the boarding department having included in the past Presbyterians, Methodists, Baptists and Episcopalians.

Students are permitted to attend the places of worship of their respective denominations.

Care of Health

Regulations in modern sanitation for the preservation of health are applied in the College. The institution is in the highest sense a school for the body, as well as for the mind and heart.

An arrangement is made by which an attending physician has daily oversight of the health of each pupil. The sick receive the most efficient professional service and the kindest attention.

An Infirmary is established, suitably located with reference to the dormitories and furnished with everything needful for the comfort and welfare of the sick. A competent nurse is Intendant of the Infirmary and has charge of all the patients under the direction of the College physician. All pupils who are not well enough to attend to their school duties are required to remain in the Infirmary until they are entirely restored to health.

Parents will be notified promptly of any serious illness of their daughters.

Dress

In dress we endeavor to preserve health, and to encourage economy, neatness and good taste. All boarding pupils, without exception, are required to wear a uniform dress and the Oxford cap.

It is for the best interest of parents, pupils and the College that uniform dress requirements be enforced.

Fall and Spring Uniform.—Oxford cap. No hats. White shirt-waist, either plain or simply trimmed. White skirt of cannon cloth, duck, linen or pique, trimmed with same material. No embroidery. Any preferred pattern. Belt to match.

Winter Uniform.—Oxford cap. Black serge coat suit. Plain white shirt waist, linen or some thick material. No muslin or lace trimmed shirt waists will be worn during the winter months.

All pupils must wear high shoes, and high necked, long sleeved undervests. No cloak will be required.

Commencement Dress.—Any simple white dress made of muslin or lawn; high necked; long, or elbow sleeves; either plain or simply trimmed. No colored ribbons.

The fall and spring uniforms may be made at home. The winter uniform is ordered by the College after the session opens. By placing the order for this uniform in bulk, both the material and the making are obtained at less cost than

could be done at home. No uniform is required for every day or school use.

Articles to be Furnished by Students

Every boarder in the College must furnish safety matches, two sheets, two pillow cases (27x18 inches), one pair of blankets, one counterpane, towels, toilet articles, doilies and doily rings.

Every boarder must be provided with a waterproof, an umbrella and overshoes, and with a teaspoon and drinking glass for private use in her own room.

Pupils are allowed to bring any other articles they wish for the comfort and adornment of their rooms.

Regulations

To Parents:

1. Parents or guardians who place their daughters or wards in Chicora College are understood to do so under the conditions defined in this Catalogue.

2. As the success of students in their school duties depends largely upon the full and hearty co-operation of parents with the Faculty, we will expect such co-operation.

3. The regulations of the College are such as have been proven by experience to be for the best interest of the individual student, the student body and the institution; hence parents cannot give their daughters permission to do what is

prohibited, nor to omit what is required, by the rules of the College.

4. Parents should consult with the President before determining upon a course of study for their daughters. After a course is selected and has been entered upon, no change can be allowed, except for very imperative reasons.

5. Parents cannot overestimate the importance of entering their daughters on the first day of the session and allowing them to remain until the last day.

6. Parents cannot overestimate the importance of their daughter's doing continuous, uninterrupted work during the entire session; therefore, they are urgently advised not to allow them to return home often during the session.

7. Pupils are not allowed to make accounts at the stores, without the written permission of their parents. It is greatly preferred that no bills should be made.

8. No visitors will be received on Sunday. Pupils are not allowed to receive visitors during school and study hours, unless from relatives and friends who live at a distance and will remain in the city only a short time.

9. Pupils are not allowed to have an excessive correspondence or to receive visits or attentions from young men, except when permission is given by the parents to the President. Even then the time and frequency of such visits and

A Peep Into the Double Parlor.

attentions must be left to the discretion of the President.

10. Parents should not act upon any matter involving the interest of their daughters and of the College without first conferring freely with the President.

11. Parents are requested:

(1) To mail all communications concerning their daughters directly to the President, and not send them through the medium of the pupils.

(2) To fully inform the President or Vice-President of the physical condition of their daughters.

(3) To address all telegrams for their daughters to the President.

(4) To address all letters and parcels in care of Chicora College, Greenville, S. C.

(5) To prepay all express charges.

(6) To mark all baggage plainly with the full name and destination of the owner.

(7) To have dentistry, vaccination and dress-making, except the winter uniforms, attended to at home.

(8) To furnish the President with the names of persons with whom their daughters may be allowed to correspond, of young men from whom they may receive visits, and of families in the city which they may be permitted to visit.

(9) To notify the President on what train and at what time their daughters will arrive in Greenville, whenever they are coming or returning to the College.

12. We sincerely hope that parents and guardians will show their appreciation of our great responsibility in the care of so many young women by being considerate and co-operative. You and we equally desire, and together are laboring for, the best and highest welfare of your daughters and wards.

To Pupils:

1. While at home mark plainly in your own name all articles of clothing which are to be laundered.

2. While at home have your dentistry work done and attend to all dressmaking, except the uniforms.

3. Notify the President when you expect to arrive in the city, that you may be met.

4. Assignment of rooms is made in the order of application.

5. We try to arrange for every one to have a congenial room-mate.

6. It is greatly to your advantage to be present at the opening of the session.

7. Money, jewelry and other things are kept in the rooms at the pupil's own risk; so deposit money with the President immediately on your arrival.

8. Card playing, dancing, theatre-going and the reading of morally hurtful books are absolutely prohibited; so do not bring cards and hurtful books into the College.

9. Discuss with your parents the course of study you wish to pursue.

10. We try to make your stay with us both pleasant and profitable.

11. We expect every pupil to conduct herself in a lady-like, womanly way and to be an honor and pride to her parents and to the College.

12. Pupil's Promise: I hereby solemnly promise, on being matriculated as a pupil in Chicora College, that I will strictly obey all the rules and regulations of the College while I remain a pupil therein.

To Teachers:

All officers and teachers have an implied agreement:

1. To sustain the Board of Trustees and the President in the management and discipline of the College, enforcing all the rules and regulations that are prescribed.

2. To be uniformly prompt and faithful in the discharge of all the duties pertaining to their positions.

3. To be prompt at the daily and other exercises of the College, at classes and at meals.

4. To have a thoughtful care over the pupils

and to report promptly to the President anything affecting their welfare which requires attention.

5. To keep their recitation rooms neat, attractive and comfortable.

6. To set a good example to the pupils in everything that pertains to their physical, mental and spiritual well-being.

The Faculty

While beautiful grounds, commodious buildings and complete appointments are exceedingly helpful in securing the best results in a College, yet we realize, and readily admit, that these do not make a College, and, indeed, are not even the chief factors in a high-grade College. Therefore, while endeavoring to furnish one of the best equipped and most attractive College plants in the State, we have recognized the imperative necessity, and felt the responsibility, of securing a large, strong and competent Faculty of earnest, faithful and professionally trained men and women of high Christian character and purposes. Hence, the greatest care is exercised in the selection of officers and teachers. The teachers must be members of the Church, exemplary in character and conduct, specialists in their respective schools and must have a tender regard and sympathy for the pupils in all their interests.

The Scholastic Year

The Scholastic Year begins on the third Thursday of each September and continues for thirty-six consecutive weeks. The session is divided into two terms of eighteen weeks each.

The First Term of the next session begins September 19, 1907, and closes January 22, 1908.

The Second Term begins January 23, 1908, and closes May 27, 1908.

Holidays

The following regular holidays are given:

Thanksgiving Day.

Two weeks Christmas.

Washington's Birthday.

Confederate Memorial Day.

Occasionally, as may seem desirable, books are laid aside for a half day, or a day, and the time spent in suitable recreation.

Examinations

Comprehensive examinations form a part of the regular exercises of the College. Partial review examinations, oral or written, are held at the option of the teacher. There are two regular written examinations of all the classes every session, viz:

1. The Intermediate Examination, which is held just before the Christmas holidays on all the studies of that term.

2. The Final Examination, which is held at the close of the Second Term on all the studies of that term.

Gradation

Every student is graded on each of her classroom exercises. Special work and optional examinations rank with daily recitations.

Grading is on a scale of 0-100.

No student will be approved for promotion or graduation who does not make a grading of 75.

In determining the standing of students, the average of class-marks for daily recitations, special work and optional examinations is combined with the mark for the term examination on the basis of two-thirds and one-third respectively.

Reports

Quarterly and Term reports on gradation, attendance, diligence, and deportment are sent to parents and guardians. The design of these reports is to give full information of the conduct and progress of the students, and to secure the co-operation of parents and guardians in promoting a faithful discharge of duties on the part of their daughters and wards. It is earnestly requested that parents and guardians read carefully these reports and communicate the contents to their daughters, commending them when the reports are good, and holding them to a strict account when the reports are not good.

A "Golden Report" is given students making an average grade of 95 on all their studies.

Entrance Requirements

Applicants for admission into any class in any department of the College must be proficient in those studies, or their equivalent, which are embraced in the class immediately below that which it is desired to enter. By reference to the Curriculum on pages 31, 32, the requirements for entrance into the Freshman class may be ascertained.

Entrance by Certificate.—Entrance into any class is given on certificate from any accredited Graded School, Preparatory School or College, stating that the applicant is proficient in the studies, or their equivalent, prescribed for the class immediately below the one which it is desired to enter. All who wish to be admitted on certificates should write the President for blank forms.

Entrance by Examination.—Applicants who do not present certificates, as above described, will be required to stand examination upon the studies, or their equivalent, embraced in the class immediately below that which it is desired to enter.

Conditional.—Applicants who are deficient in one or more subjects will be conditioned. Those who are thus conditioned will be given ample opportunity for overcoming their deficiencies dur-

ing the First Term of each session and advancing to full membership in the class.

The Curriculum

The Curriculum of the College is prescribed in accordance with the purpose outlined above. It constitutes the substantial features of a broad, liberal education and culture. It is extensive, of high grade and especially adapted to the needs and desires of cultured womanhood.

The Course of Instruction embraces four departments: The Primary, the Grammar School, the High School, and the Collegiate.

Departments

The Primary, Grammar School and High School Departments have been established because we believe in the importance of thorough elementary training through a full and uninterrupted course of preparation for College. Such training, we think, can best be secured by special, individual attention to each child. These departments offer such attention and training under expert and approved teachers, and in accordance with approved modern methods.

1. Primary Department

First Year

1. **Bible.**
2. **English.**—Reproduction of short sentences and stories. Uses of period, interrogation point and capital letters. Uses of nouns and pronouns.
3. **Mathematics.**—Addition, subtraction, multiplication and division of simple numbers. Analysis of simple problems.
4. **Geography.**—Nature study. Points of the compass. Stories of nations. Local geography.
5. **Spelling.**—Word building from phonograms. Dictation of simple sentences.
6. **Reading.**—Ward's Primer. Graded Classics, No. 1. Supplementary reading. Stories read to class by teacher.
7. **Writing.**—Words and sentences copied from black-board.

8. **Music.**—Rote songs. Chart songs.
9. **Physical Culture.**—Calisthenics.
10. **Manual Culture.**—Drawing.

Second Year

1. **Bible.**
2. **English.**—Stories reproduced. Letter writing. Forms of the sentence. Word forms. Marks of punctuation and their uses. Adjectives, adverbs and verbs studied.
3. **Mathematics.**—Addition, subtraction, multiplication and division. Problems involving simple fractions. Making original problems. Wentworth's Elementary Arithmetic.
4. **Geography.**—Forms of land and water. Home geography. Nature study.
reading.
5. **Spelling.**—Swinton's Primer. Words selected from reading.
6. **Reading.**—Graded Classics, No. 2. Supplementary reading (selected).
7. **Writing.**—Blackboard copies and independent writing.
8. **Music.**—Chart lessons. Rote songs.
9. **Physical Culture.**—Calisthenics.
10. **Manual Culture.**—Drawing. Augsburg's Course, No. 1.

Third Year

1. **Bible.**
2. **English.**—Maxwell's First Lessons in English. Oral and written exercises. Reproduction of stories. Dictation exercises. Recitations.
3. **Mathematics.**—Wentworth's Elementary Arithmetic (through compound quantities).

4. **Geography.**—Map drawing of school grounds, town and county. Geographical study of continents, islands, seas, gulfs and bays. Motion of the earth. Seasons, plants and animals.

5. **Spelling.**—Swinton's Word Book (begun).

6. **Reading.**—Graded Classics, No. 3. Stepping Stones to Literature, No. 3. Supplementary Reading.

7. **Writing.**—Vertical copy book, No. 2.

8. **Music.**—Natural Music Course (Book I.).

9. **Physical Culture.**—Calisthenics.

10. **Manual Culture.**—Drawing. Augsburg's Course, No. 1.

Fourth Year

1. **Bible.**

2. **English.**—Maxewll's First Lessons in English (completed).

3. **Mathematics.**—Wentworth's Elementary Arithmetic (completed). Drill in rapid calculations. Original problems. Drawing to scale.

4. **Geography.**—Maury's Elementary Geography (taught orally). Maps of the county, South Carolina, United States and North America. Nature study.

5. **Spelling.**—Swinton's Word Book (completed).

6. **Reading.**—Graded Classics, No. 4. Supplementary Reading.

7. **Writing.**—Vertical Copy Book, No. 3.

8. **Music.**—Natural Music Course (Book I.).

9. **Physical Culture.**—Calisthenics. Instruction in Physiology and Hygiene.

10. **Manual Culture.**—Drawing. Augsburg's Course, No. I.

III. Grammar School Department

First Year

1. Bible.

2. English.—Steps in English: Book One. Compositions. Written recitations in Geography and Grammar (once a week at least).

3. Mathematics. — Wentworth's Practical Arithmetic (through compound quantities). Original problems in mensuration with diagrams. Mental Arithmetic.

4. Geography.—Maury's Elementary Geography.

5. Spelling.—English Words as Spoken and Written (No. 2). Definitions of words in reading lesson. Dictation exercises.

6. Reading.—Cyr's Fifth Reader. Stories of the Greeks and Romans.

7. Writing.—Copy book (No. 4).

8. Music.—Natural Music Book (No. 2). Written exercises.

9. Physical Culture.—Calisthenics. Instruction in Gymnasium by teacher.

10. Manual Training.—Drawing. Augsburg's Course, No. II.

Second Year

1. Bible.

2. English.—Woodward's Advanced Lessons in English. Composition and analysis of sentences. Study of the structure of the sentence.

3. Mathematics.—Wentworth's Practical Arithmetics (through measurements). Original work, as in previous year.

4. **Geography.**—Maury's Manual. Written exercises. Carpenter's Europe (read to class by teacher).

5. **History.**—History of Our Country. Guerber's Stories of the Greeks.

6. **Spelling.**—English Words as Spoken and Written (No. 2), completed and reviewed. Use of diacritical markings and the dictionary.

7. **Reading.**—Bunyan's Pilgrim's Progress. Longfellow's Evangeline.

8. **Writing.**—Copy book (No. 5).

9. **Music.**—Same as first year.

10. **Physical Culture.**—Training in Gymnasium.

11. **Manual Culture.**—Same as first year.

Third Year

1. **Bible.**

2. **English.**—Steps in English: Book Two. Ancient Mariner and Vision of Sir Launsfal (dictated). Lessons on versification and punctuation.

3. **Mathematics.**—Wentworth's Practical Arithmetic (completed and reviewed).

4. **Geography.**—Maury's Manual (completed and reviewed).

5. **History.**—History of Our Country (completed and reviewed). South Carolina History.

6. **Spelling.**—Benson and Glenn's Speller and Definer.

7. **Reading.**—Silas Marner or Ivanhoe. Recitation and speeches (at least once a week).

8. **Writing.**—Copy book (No. 6).

9. **Music.**—Natural Music Book (No. 2).

10. Physical Culture.—Gymnasium.

11. Manual Culture.—Drawing. Free hand drawing. Designs and patterns. Maps.

III. High School Department

First Year

1. Bible.

2. English.—Steps in English: Book Two (completed). Composition. Reports and abstracts of reading. Exercises in description and narration. Maxwell and Smith's Writing in English (begun in last quarter).

3. Mathematics.—Wentworth's High School Arithmetic. Wentworth's New School Algebra (through factoring).

4. Geography.—Redway and Himman's Advanced Geography (Political and Physical).

5.—History.—Review of United States History (by topics). Montgomery's History of England. Current History.

6. Latin.—Bain's First Latin. Study of the Declensions and conjugations. Latin into English. English into Latin.

7. Spelling.—Benson and Glenn's Speller and Definer.

8. Reading.—Lays of Ancient Rome. Enoch Arden and other short poems by Tennyson.

9. Music.—Same as third year.

10.—Physical Culture.—Same as third year.

11. Manual Culture.—Same as third year.

Second Year

1. Bible.

2. English.—Analysis and parsing of selections from reading. Maxwell and Smith's Writing in English (with

daily short theme). Merchant of Venice. Julius Caesar. Scott's Lady of the Lake. Collateral reading to be selected from Library. Written reports of plays and novels.

3. Mathematics.—Wentworth's High School Arithmetic (review, with especial care given to mensuration). Wentworth's New School Algebra (through problems involving simultaneous equations).

4. Natural Science.—Physical Geography (completed).

5. History.—Ancient and Medieval History (Myers). Clarke's Civil Government. Current History.

6. Latin.—Forms reviewed. Oratio Obliqua and subjunctive mode. Prose translation and memorizing. Caesar's Gallic War (Book I.). D'Ooges' Latin Composition (Part I. Gildersleeve's Latin Grammar.

7. Spelling.—Westlake's 3000 practice words (Dictated).

8. Music.

8. Physical Culture.—Gymnasium and games.

9. Manual Culture.—Designs and patterns.

Third Year

1. Bible.

2. English.—Compositions. Structure of sentences and paragraphs. Figures of speech. Painter's American Literature. Special work in Irving, Bryant, Hawthorne, Longfellow, Whittier, Lowell, Holmes. Essays on subjects drawn from class study and parallel reading.

3. Mathematics.—Algebra. Wentworth's New School Algebra. Geometry (Books 1 and 2).

4. Natural Science.—Physics. General Properties of Matter. Heat. Sound. Light. Text—Gage's Introduction to Physical Science.

5. History.—Modern History (Myers). Current History.

6. **Latin.**—Caesar's Gallic War (Books 2, 3 and 4). Cicero's Orations (Oration I., II.). Bennett's Latin Grammar. Bennett's Latin Composition.

7. ***Greek.**—White's First Lessons in Greek (a thorough study of the forms). Goodwin's Greek Grammar. Xenophon's Anabasis (Books 1 and 2, if possible).

8. **Spelling.**—Words based on selected reading.

9. **Music.**

10. **Physical Culture.**—Gymnasium and games.

11. **Manual Culture.**—Designs and patterns.

*Elective.

A Glimpse of Pipe Organ and Auditorium.

The Collegiate Department

The Collegiate Department embraces the following courses of study:

- A. The College of Liberal Arts and Sciences.
- B. The College of Music.
- C. The College of Art.
- D. The College of Expression.
- E. The College of Gymnastics.
- F. The College of Business.

A. The College of Liberal Arts and Sciences

The College of Liberal Arts and Sciences is divided into the following distinct schools:

1. The School of Bible. This school includes the English Bible and Christian Evidences.

2. The School of English. This school includes the English Language and Literature.

The School of History. This school includes History and Political Science.

4. The School of Mathematics. This school includes Algebra, Geometry, Trigonometry and Calculus.

5. The School of Natural Sciences. This school includes Physics, Chemistry, Botany, Zoology, Physiology, Geology, Mineralogy and Astronomy.

6. The School of Philosophy. This school includes Logic, Psychology, Ethics and the History of Philosophy.

7. The School of Ancient Languages. This school includes the Latin and Greek Languages and Literatures.

8. The School of Modern Languages. This school includes the French, German and Spanish Languages and Literatures.

*Students selecting this course must take at least two periods per week from the following group of Electives: Music, Art, Expression, Physical Culture, Business.

Courses for the Degree of M. A.

The degree of M. A. will be conferred upon any B. A. graduate of this College or any other of equal grade, who pursues one year of resident study and satisfactorily completes the course prescribed by the Faculty, which must embrace one major and two minor subjects chosen from at least two schools.

Description of Courses

1. The School of Bible

This school is required of all pupils. The course embraces the whole Bible and Christian Evidences. Text-books are used, but special emphasis is placed upon the study of the Bible itself. The course is supplemented by lectures, maps, charts and other helps.

Freshman Year

The Old Testament.—The history of redemption is the basis; the story of the Jews, together with contemporaneous events, ancient customs, laws, government and the geography of Palestine; grouping and placing of the prophets, with lectures bearing on the purpose and contents of each book.

Sophomore Year

The Life of Christ.—Study of the time intervening between the Old and New Testaments; harmony of the gospels; memorizing the main events of the life of Christ in their chronological order; Christ the fulfilment of Old Testament prophecy.

Junior Year

The Apostolic Church.—The Acts of the Apostles; the origin, purpose and contents of the epistles; the Revelation.

Senior Year

Christian Evidences.—Alexander's Evidences of Christianity; missions.

2. The School of English

The following course is intended to give facility of expression in the English tongue and a knowledge of the origin and development of, and a love for, the English language and literature:

Freshman Year

1. Rhetoric and Composition.—Review English Grammar. Frequent theme writing and similar exercises.

2. Literature.—Required reading: Macaulay—Essay on Addison and Life of Johnson. Burke—Speech on Conciliation with America. Milton—Lycidas, Comus, L'Allegro, Il Penseroso. Shakespeare—Julius Caesar. Other selections from English and American literature. Frequent written reports on parallel reading.

Text books: Allen's School Grammar, Espenshade's Rhetoric, Weber's Southern Poets.

Sophomore Year

1. Rhetoric.—Weekly Essays. Special drill in refining and strengthening style.

2. Literature.—History of English Literature from its beginning to the 19th century.

Required Reading.—In Essay and Novel of the periods studied, in George Eliot, Scott, Thackeray and Dickens.

Text books: Espenshade's Rhetoric, Simonds' "English Literature."

Junior Year

1. Old English.—The elements of Old English Grammar and translations into Modern English from Old and Middle English selections.

2. Literature.—The study of the year centers around Shakespeare. Four plays best representing his work at different periods are studied—others belonging to the same periods are read as parallel.

History of English Literature from the 19th century. Essays every two weeks.

Text books: The Leopold Shakespeare; the Arden edition of Shakespeare plays studied; Simonds "English Literature."

Senior Year

Representative poets, essayists, and novelists of the nineteenth century are studied. Formal essays on assigned subjects. Reports on parallel readings. Analyses of poems, essays, and novels studied. Parallel readings.

Text books: Page's British Poets 19th Century.

3. School of History

In the work of this department effort is made not only to train the memory, but to develop the power of reasoning, to give experience in using materials, and to set before the student's mind a high standard of character.

For every course collateral reading is required and written papers and special reports are frequently assigned.

Freshman Year

General History.—The history of a country cannot be treated as a separate incident; hence this course is planned for the purpose of giving the student a broad view of the continuous movement of history, thus preparing her for the special courses which are to follow. The course deals especially with the history of Greece and the nations that influenced Greek civilization; Roman history; the problems and institutions of the Middle Ages; the Renaissance; the Reformation; the French Revolution.

Text-books Adams' European History.

Books of Reference: Gibbon's Decline and Fall of the Roman Empire; Emerton's Middle Ages; Periods of European History; Translations and Reprints from Original Sources.

Sophomore Year

English History.—This course begins with the early history of Britain and traces the development of the country through the Norman Conquest, the struggle for constitutional rights, the Renaissance, the Reformation, the American Revolution, and the growth of Democracy.

Text-book Coman & Kendall's History of England.

Books of Reference: Green's Short History of the English People; Stubb's Constitutional History of England; Gardiner's History of England; Kendall's Source Book.

Junior Year

American History.—From colonization to the present time. The period of discovery and exploration will be briefly considered; the Colonial period, special stress being placed upon the causes and events leading to the independence of the colonies; problems of the Civil War and reconstruction period will be given particular attention.

Text-books Thwaite's The Colonies; Hart's Formation of the Union; Wilson's Division and Reunion.

Books of Reference: Channing's Students' History of the United States; Fiske's Histories; McLaughlin's History of the American Nation; American History Series.

Senior Year

Civil Government.—This course seeks to present for the consideration of the students the most important governmental institutions. The constitutions of various typical European states will be studied and then the student will be prepared to consider in detail the governments of Great Britain and the United States. Much reference work will be required, but students are urged to observe for themselves the operations of government and are expected to keep up with current political questions.

Text-book: Wilson's State.

Books of Reference: Stubb's Constitutional History of England; Holland's Constitutional History of England; Fiske's Histories; American Statesmen Series; Bryce's American Commonwealth.

4. The School of Mathematics

No department is more important than this for the development of accurate thinking and reasoning. The course, as arranged, is what experience has shown that all girls may comfortably accomplish. The temptation to most young women is great to neglect the study of mathematics; but nowhere is the evidence of such neglect sooner manifested, or the penalty for it swifter, than in this exact science. It is urged that the more earnest attention be given this school in proportion as natural aptitude is wanting.

The following course is designed to make students familiar with those principles that bear di-

rectly upon practical questions, and to develop the ability to grasp and prove new truths.

Candidates for admission to this school must have a thorough knowledge of Algebra and of two books of Plane Geometry.

The courses are as follows:

Freshman Year

Plane Geometry.—Four hours a week during entire year. Books III. to V. inclusive.

Solid Geometry.—In order to promote self-dependence and to more thoroughly develop logical reasoning, original demonstrations are required, those in the text book being supplemented by those from various authors.

Text-book: Wentworth's Plane and Solid Geometry.

Sophomore Year

1. Trigonometry.—Four hours per week during entire year. Much time is given to the discussion of the properties of spherical right angles and of spherical oblique triangles, and the solving of problems relating to the celestial sphere.

Text-book: Wentworth's Plane and Spherical Trigonometry.

2. Advanced Algebra.—A rapid review of the principles of Algebra preceding Quadratic Equations will be followed by a thorough study of Quadratic Equations. The Binomial Theorem, Choice, Chance, Series, Determinants and the General Properties of Equations.

Text-book: Wentworth's College Algebra.

Junior Year

Analytical Geometry.—Three hours per week during entire year. Much time will be given to the more important of the

higher plane curves and Solid Analytical Geometry and a thorough knowledge of co-ordinates, ellipse and hyperbola will be insisted upon.

Text-book: Wentworth's Analytical Geometry.

Senior Year

Differential and Integral Calculus.—Three hours per week during entire year. This is one of the most useful branches of Mathematics. Calculus investigates quantities whose values are constantly changing, and considering the fact that nature, in its aspects, constantly varies, the importance of a mathematical method dealing with variables is evident. During this year lectures upon the History of Mathematics will be given.

Text-book Osborne's Calculus.

5. The School of Natural Sciences

The object of this school is to give an acquaintance with physical phenomena and their causes, and to stimulate and develop the powers of observation and logical deduction. Throughout the course the text-books are supplemented by lectures and simple experiments.

Freshman Year

1. Introductory Physics.—Four hours per week during first half session. This course consists of text-book work and laboratory practice in the subjects of mechanics, heat and sound. Special attention is given to the problems and the practical application of the principles.

Text-book: Avery's School Physics.

2. Botany.—Four hours per week during second half session. The first six weeks are given to the study of the various

parts of the plants preparatory to the analization of specimens from the vicinity. Each student is required to correct, analyze, and mount twenty-five specimens.

Text-book Bergen's Elements of Botany.

Sophomore Year

1. **Physiology.**—Four hours per week during first half session. This course is designed to familiarize the student with the functions and forms of the organs of the body.

Text-book: To be selected.

2. **Inorganic Chemistry.**—Four hours per week during second half session. Two hours a week will be devoted to lecture and text-book work and two hours per week to laboratory work. Each student is required to make careful notes on each experiment.

Text-book: Ira Remsen's.

Junior Year

1. **Organic Chemistry.**—Four hours per week during first half session. Three hours a week will be given to laboratory work and one hour per week to lectures. Careful notes are kept by each pupil.

Text-book: Remsen.

2. **Physics.**—Four hours per week during second half session. This time is devoted to the subjects of Radiant Energy, Magnetism and Electricity.. Two hours laboratory work a week required and careful notes are kept.

Text-book: Avery's School Physics.

Senior Year

1. **Astronomy.**—Three hours per week during first half session. The purpose of this course is to give the student as accurate knowledge as possible of our solar system and the methods of determining latitudes and longitude.

Text-book: Young's Elements.

2. Geology.—Three hours per week during second half session. The object of this study is to interest the student in geological phenomena occurring and geological agencies now at work on every hand.

Text-book: Le Conte's Geology.

3. Mineralogy.—Two hours per week during entire year.

Text-book: To be selected.

h. The School of Philosophy

This school includes Logic, Psychology, Ethics and the History of Philosophy.

Junior Year

1. Logic, Deductive and Inductive.—The different forms of syllogism, laws of correct reasoning and common fallacies are treated and copious exercises are given.

Text: Jevons-Hill's Logic.

2. Psychology.—This science inquires about objects other than physical or sensible. It regards the ultimate grounds of being—the philosophy of soul or mind as distinguished from matter. The course embraces a study of the nervous system—its structure, functions and modes of reaction—and a comprehensive survey of the concomitant mental phenomena. The course should be, and is, practical.

Text: Buell's Psychology.

Senior Year

1. Ethics, Theoretical and Practical.—The nature of the moral agent and of virtue is studied. Various ancient and modern theories are considered. The true system of moral

philosophy is shown to be comprehended in the Scriptures.

Text: Dabney's Practical Philosophy.

2. **History of Philosophy.**—The various philosophic systems are reviewed and the special contribution of each to modern thought is estimated.

Text: Weber's History of Philosophy.

7. The School of Ancient Languages

This school embraces the Latin and Greek languages and literatures. The ends sought are a thorough knowledge of inflected forms and rules of syntax; a good vocabulary for fluent reading; a correct translation of the languages into clear, idiomatic English, and of English into the languages, and an intelligent appreciation of the literature. Copious selections are read as rapidly as is consistent with thoroughness. Reading at sight is required. In Latin, the Roman method of pronunciation is employed.

Latin

Freshman Year

Virgil's Aeneid.—Special attention is given to syntax, versification and mythology, and emphasis is laid upon elegance of translation and an appreciation of Virgil's literary style.

Selected Orations of Cicero.—The more difficult Ciceronian constructions are carefully studied and, from a critical analysis of each oration the student is led to an appreciation of the author as statesman, orator, and man of letters, and to an intelligent interest in the various phases of Roman life which he reflected and expressed.

Section of Dining-Room and Art-Room.

Prose Composition.—Written exercises affording a general review of Latin Syntax, with special and concentrated drill on the various case relations.

Sophomore Year

Horace's Odes.—This course includes translation, commentary on the details of each ode, syntactical, historical, mythological, etc., thought, analysis and literary criticism.

Livy, Book XXI is read, with accompanying studies in syntax and style.

Prose Composition.—Writing of exercises giving a systematic treatment of the Latin subjunctive, with special attention to conditional sentences and indirect discourse.

Junior Year

Terence's Phormio.—**Plautus's Captivi.** The translation and interpretation of these plays is accompanied by a study of the origin and development of the Roman comedy, and careful attention is given to early Latin forms, vocabulary and syntax.

Catullus.—Selections from his poems are read, and a study made of his poetry as an exponent of his life.

Prose Composition.—Writing of passages of continuous Latin, based on carefully selected models, and involving the most important syntactical principles and idiomatic peculiarities of the language.

Senior Year

Tacitus's Germania or Agricola.—One of these works is carefully read, with special regard to the style of Tacitus and his place as a historian.

Horace's Satires and Epistles.—Selected satires and epistles are read and analyzed and an effort is made to have the student see something of the world on which the poet looked,

and how he looked on that world; what his message to society was, and how he succeeded in delivering it.

Prose Composition.—The work is adapted, as far as possible, to the requirements of the individual student, and special attention is given to any subject in which she may feel deficient.

Greek

Freshman Year

Grammar; inflexion and word-formation; Greek-English and English-Greek exercises; vocabulary; reading from Xenophon's *Anabasis* and *Lysias*.

Sophomore Year

Grammar; vocabulary; Greek-English and English-Greek exercises; variations in form and syntax; Epic poetry and the meter of the Homeric hexameter; Greek mythology; reading from Homer and Herodotus.

Junior Year

Grammar; vocabulary; study of form and style of authors; lyric and dramatic poetry; prose composition; literature; reading from Demosthenes, Plato and Euripides.

Senior Year

Grammar; original exercises; literary and rhetorical criticism; reading at sight; reading from Aeschylus, Thucydides, Sophocles and Pindar.

B. The School of Modern Languages

The languages studied in this school are French and German. The instruction includes both language and literature, and aims to give the student facility in writing and speaking or-

dinary French and German, ability to translate easily, a knowledge of the people, customs and institutions; in short, to secure accurate discipline and liberal culture.

French

First Year

Chardenal's First French Course; Super's Preparatory French Reader; Methode Berlitz, premier livre; frequent written exercises; careful practice in pronunciation and conversation; sight reading; dictation.

Second Year

Fraser and Squair's French Grammar; La Fontaine's Livre de Lecture et de Conversation; readings from some of the following texts: Halevy's l'Abbe Constantin; Sand's La Mare au Diable; Feuillet's Le Roman d'un Jeune Homme Pauvre; Merimee's Colomba; Daudet's La Belle Nivernaise; conversation; dictation.

Third Year

Sauveur's Petite Grammaire Francaise pour les Anglais; Histoire de la Litterature Francaise; Corneille, Le Cid; Racine, Andromaque; Moliere, Le Misanthrope; Hugo, Hernani; Rostand's Cyrano de Bergerac.

Fourth Year

This course is arranged to suit the needs and wishes of the individual class.

German

First Year

Thomas's Grammar; Stern's Geschichten vom Rhein; Berlitz-Methode, Erstes Buch; careful drill in pronunciation and conversation; translation at sight and hearing.

Second Year

Thomas's Grammar; Storm's Immensee; Hillern's Hoher als die Kirche; Heyse's L'Arrattata; Keller's Bilder aus der Deutschen Litteratur; sight reading; dictation.

Third Year

Grammar reviewed; composition; Schiller's Wilhelm Tell; Lessing's Minna von Barnhelm; Goethe's Meisterwerke; Geschichte der Deutschen Litteratur.

Fourth Year

This course is arranged to suit the needs and wishes of the individual class.

B. The College of Music

The work of each student will be planned to develop in him an intelligent conception of the great masters in all styles and schools of music and at the same time enable him to gain that variety of touch and skill necessary to their artistic performance.

The length of time required for the completion of the course cannot be exactly determined, but depends upon the **talent** of the pupil, and upon the **amount** and **kind of study** done.

No strict course will be adhered to, but the Technique used throughout will be that prescribed in the Syllabus of the American College of Musicians of the University of New York.

The following course is indicative only of the standard maintained:

Piano

Elementary

The piano method of Wagner, Beyer or Howe, according to age and need of pupil. Beginning of scale work. Music writing book.

Grade I.—Music writing book. Selected technical exercises for development and control of the hand and proper wrist motion.

Gurlitt Op. 38, Lichner.

Schmidt, Op. 325.

Easy duets and sonatinas. Major scale. Writing of major scales.

Grade II.—Major and minor scales. Arpeggios, chord exercises. Bertini, Op. 20, Heller, Op. 45, 46, 47. Bach, Little Preludes. Sonatinas, Mozart, Kuhlau. Pieces of Rienecke, Gurlitt, Lichner, Schumann. Duets, Teacher and pupil. Ear tests. Notation and writing of scales.

Grade III.—Scales in more elaborate forms and in varied rhythms. Arpeggios of the triad, dominant sevenths and ninths in the several inversions. Studies, Heller, Czerny, Henselt. Chopin Waltzes. Bach Invention in two voices. Haydn and Mozart Sonatas. Pieces for development of legato, etc. Ear training. Writing of scales in major and minor and all of the triads.

Grade IV.—Studies, Czerny, Cramer, Jensen, Kullak. Bach Inventions in two and three voices. Field and Chopin Nocturnes. Beethoven Sonatas. Hamilton Art of Hymn-tune Playing. Pieces by Schubert, Chopin, Raff, Henselt, Scharwenka, Brahms, Godard, Schumann. Duets, Haydn, Mozart, Schubert, Moszkowski.

Grade V (Junior).—Studies, Czerny, Clementi's *Gradus ad Parnassum*, Rubinstein Etudes. Chopin Op. 10 and 25. Kullak's Octave Studies. Jensen Etudes Op. 32. Beethoven Sonatas, Bach Three-voice Invention, Suites, Preludes. Pieces from the masters. Liszt transcriptions. At least one movement from a Concerto of Mozart or Mendelssohn. Ensemble playing.

Grade VI (Senior).—Studies, Clementi, Raff, Tausig, Josef-
fy. Beethoven Sonatas ("Second period"). Bach Well-tempered Clavichord. Larger compositions of Chopin, MacDowell, Debussy and selections from the Neo-Russian composers. A concerto by Mendelssohn, Beethoven, Rubinstein, MacDowell, Grieg, or modern masters at discretion of the director. Ensemble playing.

First Year Post-Graduate

Advanced School of Piano Playing, Joseffy. Liszt Symphonic Poems. Sonatas Beethoven ("Third period"). Sonatas of MacDowell, Brahms, Richard Strauss or other moderns. Concertos from same masters. Selected pieces of Debussy, Scriabine, Glinka, Elgar, Coleridge-Taylor. Arrangements by Busoni of Liszt and Bach, by Godowski of Chopin and the pre-Classicalists. A judicious selection of ultra-modern novelties.

Course in Harmony

Part One. Harmonic Exercises.—Major and minor scales and chords. Figuration. Positions of Chords. Cadences, Dissonances. Six and Seven-chord Cadences.

Part Two.—Consonant and Dissonant Principal Chords of the Key. Inversions. Harmonization of melodies. Subordinate chords, treatment of foreign tones, suspensions, etc., with harmonization of melodies and exercises.

Part Three.—Harmonic modulation. Altered (mixed) chords.

Course in Composition

This course begins at the conclusion of the course in Harmony with a study of melody writing following in general the lines suggested by the best authorities.

The following points will be considered:

(a) The Phrase, with all forms of cadence and a study of the harmonic basis and equipment of melody phrases, the development and extension of the Phrase.

(b) The Period form. The Double Period.

(c) The Part Forms. The two, three and five part song-forms. Irregular and compound song forms. The trio.

(d) The Lyric, Etude and Dance styles.

Course in Music History

This subject will be taught almost entirely by lecture. Students will write papers from time to time on the various epochs, schools and composers. Compositions both vocal and instrumental from the periods under consideration will be performed before the class. Following is given the course of lectures:

Prehistoric Music.

Ancient Music—Chinese, Egyptian, Hindoo, Greek and Roman.

The Epoch of the Netherlanders.

Music of the Early Christian Church.

Polyphonic Writing.

Beginning of Opera and Oratorio.

Italian Opera.

French Opera.

German Opera.

Oratorio.

Very Early Writers for the Piano.

Bach.

The Classic Writers.

The Transition Period.

Beethoven.

The Romantic Writers.

Chopin.

Richard Wagner.

Richard Strauss and the Music Drama "Salome."

Contemporary Composers, Pianists, Singers.

Supplementary lectures.

The Violin, Violinists, and Violin Music.

The Organ, Organists and Organ Music.

The Viola.

The Bass Viol and the great Contra-bassists.

Course in Pianoforte Aesthetics

This work will be presented by lectures, supplemented by investigation on the part of the pupil and will include a study of the peculiarities of the pianoforte with some historical data and a review of some of the important systems and methods of playing the piano.

A detailed examination of touch—the various styles of touch considered separately and in their combined relations. Polyphonic playing. The beautiful *intechique*.

A consideration of the share of technique in the rendering, and of colours of tone, use of pedals, determination of tempo, etc.

Voice Culture

Grade I.—Lessons in breathing and tone emission. Beginning of the study of *Messa di Voce*. Sight Reading. Root'd Introductory Lessons in Voice Culture. Easy Vocalises by Behnke & Pearce, Concone, etc.

Grade II.—Intervals without Portamento. Roulades in slow movement. Slow Major and Minor scales and trills. Solfeggios and exercises from Concone, Panofka, Bordogni and others. Early development of strictly Classic Taste, Mendelssohn, Schubert, etc.

Grade III.—Vocal Gymnastics for Tone Production and Development. Clearness of Attack, Enunciation, Italian pronunciation, Vocal Physiology. Songs and Arias of moderate difficulty. Interpretation.

Grade IV.—Arpeggios. Roulades (*Legato* and *Staccato*). Chromatic scales, Turns and Trills in rapid movement. Difficult studies of Marchesi, Lamperti, Delle Sesie, and others. Sacred Music. English, German, French and Italian songs.

Grade V.—Study of all scales and embellishments with increased rapidity of execution. Phrasing, Interpretation and

Analysis. Coloratura and bravura. Oratorio and Opera. Folk-Songs of all Nations.

Grade VI.—Continuation of the study of Classic Writers. Operas of the various schools. Anthology of Italian Song. Repertoire. Mise-en-scene.

Course in Pipe Organ

Organ should be begun after about three grades of piano course is completed.

It is especially recommended that the work should begin with Lemmen's *Ecole d'Orgue*, though the following may be used when considered advisable:

Stainer's *Organ Primer*, Ritter's *Organ School*, Rink's *Organ School*, *Best Art of Organ Playing*.

In connection with these and following them may be taken Sonatas of Rheinberger and Ritter through the more difficult works of Smart, Hesse, Mendelssohn, Schumann, etc., to the larger works of the modern school represented by Guilmant, Saint-Saens, Widor, Cappoci, etc. Candidates for graduation should be able to play the Fugues of Bach, the Sonatas of Mendelssohn and Merkel and the difficult concert pieces of Guilmant, and works of equal difficulty. They must also finish all the theoretical work required of piano graduates.

In connection with the regular work in the organ course will be pursued a careful study of F. Matthew's *Manual of the Organ*.

Requirements for Graduation

Piano.—(a) The completion of the indicated course and the ability to play in an artistic and intelligent manner. (b) The completion of the indicated course in Harmony, Music History and Theory. (c) The pupil to give a public recital in a satisfactory manner.

Voice.—(a) The completion of the indicated vocal culture work and of the fourth grade piano course. (b) The completion of the Music History course. (c) The pupil to give a public song-recital in a satisfactory manner.

Course in Violin

The certificate course in this department covers four years under the same general conditions as outlined in the other departments of musical study. Students will have the advantage of modern and approved methods of violin playing, and will be advanced in accordance with their ability and aptitude for the instrument.

Grade I.—Schools of Danccla and Hoffman. Etudes of Wohlfahrt, 1st book of Sitt and 1st book of Kayser.

Pieces.—Pleyel's Duets. Yugend Album of Sitt op. 79, Yugend Album of Hille op. 53.

Grade II.—Etudes 2nd of Wohlfahrt, Sitt scales. Mhazas Studies. 2nd book of Kayser. 3rd book of Kayser.

Pieces.—Fantasie of Hans Sitt op. 66, No. I. Aus der Yugend Zeit of Sitt, op. 57. Small pieces of Adolf Weidig, op. 24. Cenfuintaine of Gabriel Marie.

Grade III.—Studies of Krenger. Double stops of Sitt. Trill studies of Sevcik. Double stops of Sevcik. Concertinos of Hans Sitt op. 70 and op. 65. Concertinos of Accolay No. I. in A minor; No. II. in D minor.

Various Pieces.—Sarabande and Tamborin of Leclair. Sonatas of Schubert.

Grade IV.—Etudes of Fiorillo. Rode, Gavinies, Concertos and Sonatas of all the masters.

Course in Choral Singing

This course is given free to all the pupils of the College who wish to take it. The advantages of choral and sight singing are great and we would be pleased to have parents urge their daughters to join this class.

C. The College of Art

The college offers to the student a four years' course. Beginning with the elementary forms of geometrical solids, the pupil is advanced to the life class as rapidly as the character of her work will admit. Prospective is taught by black-board demonstration and its principles are illustrated by out-of-door sketching and by interior studies. Finished work will be under the control of the instructor until the end of the academic year, when it will be exhibited.

The successful completion of the four classes prescribed entitles the pupil to a diploma.

Class I.—Drawing from geometrical solids. Blocked heads, hands and feet. Still life. History of Art.

Class II.—Drawing from casts. Painting from still life. Out-of-door sketching. History of Art.

Class III.—Painting in oil, water color, or pastel from still life. Life model in charcoal. History of Art.

Class IV.—Life model in oil, water color, or pastel. History of Art.

For those pupils desiring them, there are special departments in Pyrography and China Painting. The College provides a kiln for firing.

Photography

This is a practical age for both men and women, and an essential requirement is practical knowledge. Such knowledge has a commercial value and is marketable. It is always in demand. Photography is an accomplishment, but it is an accomplishment that commands good pay and is a neat avocation for women which they find pleasant and profitable. Their natural delicacy of touch is scarcely more valuable anywhere, and peculiarly fits them for this profession.

First Year.—Plain lighting, posing, developing and retouching the negative. Complete course in amateur Kodak work.

Second Year.—Shadow lighting, printing, toning, finishing, mounting and developing papers. Artistic retouching, modeling and etching.

Third Year.—Carbons, flashlights, enlarging and reducing. Copying. Review.

D. The College of Elocution

1. The School of Reading

When pupils return to their homes they are expected to join book clubs and church and social societies and to take part in conducting them. Every one, therefore, should know how to read well. For this reason we have introduced a special course in reading.

First Year.—Required in the Freshman Class. Poise, Breathing Exercises, Voice Placing, Phrasing, Enunciation, Articulation, Pronunciation, Vocal Exercises for strengthening the voice, Emphasis, Inflection, Vocal Interpretation.

Second Year.—Required in the Sopohomore Class. Breathing Exercises, Pitch Movement, Volume, Minor Inflections, Rythm, Elements of Phonics, Vocal Formation, Selections for Practice, Memory selections.

2. The School of Expression

The purpose of this department is to give thorough training in the technic and art of natural expression; to develop the possibilities and remove hindrances of students—to make natural readers—to encourage a love and appreciation of good literature through vocal interpretation—to prepare students for effective work as readers and teachers of expression and literature.

Students' recitals will be given monthly to stimulate the pupils and give ease and confidence of manner before an audience.

The course of work includes four years, on a satisfactory completion of which a diploma in Expression will be given. We also have a special normal course for those desiring work as teachers, also a post-graduate course is given.

First Year.—1.. Physical Training. Poise. Relaxing and Energizing exercises. Breathing exercises. Fundamentals of Bodily Expression. Voice Placing. Tone Production. Volume range and agility.

2. Reading, Phrasing, Emphasis, Inflection, Enunciation and Elements of Phonics. Applied Gesture in simple Recitation.

Second Year.—1. Harmonic Gymnastics up to the spiral forms in Gesture. Grammar of Pantomime. Elements of Oratorical Action,—Principle of Form—Vocal Formation.

2. Studies in Melody and Inflection—Minor Inflection. Tone Color. Simple Pantomimes. Study and delivery of selections. Aiming at naturalness and grace.

Third Year.—Aesthetic Gymnastics. Exposition of the Delsarte System. Oratorical Action. The Psychology of Expression. Tone Color. Studies in Emotional Tone. Oratorical. Humorous and Dramatic forms of Characterization. Analysis of Vocal and Pantomimic Expression. Study of Shakespeare and other Dramatic authors.

Fourth Year.—Aesthetic Gymnastics. Drills. Statue Posing. Original Pantomimes. Advanced Technic for range and flexibility. Vowel Melody. Dramatic and Emotional Studies and abridgements of classic novels. Comedy. Modern Drama.

Text Books.—"Elocution and Action," "Steps to Oratory," by Southwick and Philosophy of Expression by Brown.

E. The College of Gymnastics

The Swedish system of Gymnastics combined with the Delsarte Method is used.

The aim primarily is health and recreation—but Physical Training is not only toward health but toward skill and grace as well—hence it assists in the education of attention, for correct repression, impression and expression. The movements are educational, military, and aesthetic, and are designed to encourage nature in her normal activity and also to prevent and overcome tendencies to abnormal development. The work is progressive, going from the simple to the complex. It leads to aesthetic work, yet simple enough to teach to the smallest child in the schoolroom. It includes correct standing, walking, Harmonic poising, marching, running. Free Hand Exercises—the use of Dumb Bells and Indian Clubs, and all apparatus found in a well equipped Gymnasium—Fencing and Drills—Out Door Games—such as Tennis and Basket Ball.

The classes will be arranged as the needs of the pupils require, at the discretion of the director.

There will be a normal course for those who wish to specialize in this department and prepare for teaching.

Each student must have Gymnasium suits and shoes.

Costume used will be divided skirts and blouse waists, black.

J. The College of Business

The demand for expert stenographers, amanuenses, office assistants, book-keepers and reporters, renders this field inviting to young people as a source of future income. Were there no such demand, every girl should be skilled in all the ordinary commercial practices. The knowledge of how to keep an account, conduct business correspondence and attend to ordinary banking, etc., is of great value to every woman, especially if she be required to look after property of her own.

But in order to be successful in these, it is evident that a liberal education and general culture are necessary. Hence, there must be proficiency in English and an extended knowledge of History. These branches are, therefore, required with this course.

The College of Business is divided into the following distinct schools:

1. The School of Book-keeping.
2. The School of Stenography.
3. The School of Typewriting.
4. The School of Penmanship.

1. The School of Book-Keeping

Double and Single Entry, Correspondence, Commercial Law, Banking, Commission, Commercial Papers, Business Practice.

Text-Books Williams and Rogers' Practical Book-keeping; Commercial Arithmetic.

2. The School of Stenography

There are systems and systems of shorthand, each claiming to be the best. We teach one which has been proved to be the most rapid and practical, and which is easy of acquisition, so that it does not interfere with other parts of the College Course. The Pernin System, which was awarded the only medal offered in this department at the World's Fair, has no shading, no change of position, arbitrary contraction nor word signs, and yet has the highest degree of legibility. It is the simplest and most complete system of shorthand now before the public.

The student is first drilled on the principles upon which the system is based, is carried gradually forward to dictation work, and is given practice of all forms of office correspondence, legal work, court reporting, etc., etc., and the phraseology peculiar to each.

Text-Books: Pernin's Universal Phonography; Pernin's Business Dictation Book; Pernin's Phrase Book; Written Exercises.

3. The School of Typewriting

It is very necessary that the stenographer be able readily and accurately to transcribe; so attention must be given to the use of the typewriter. Each pupil receives individual instruction concerning the mechanism of the machine and mode of operation. Exercises are carefully graded and neatness required. This department is well equipped with Smith Premier and Hammond typewriters.

4. The School of Penmanship

Business and Ornamental Writing, Marking, Engrossing, German Text, Pen Drawing and India Ink Shading.

However well a pupil may understand all the other branches in our curriculum, she cannot hope to succeed without a neat, legible and rapid hand-writing.

Almost any one can acquire a good hand-writing if she will give it reasonable time and attention. Be not deceived, "All great men" may "write a bad hand," but all who write badly are not great.

Intelligent practice makes perfect.

Ear, Eye, Nose and Throat

The addition of this department is in response to the great need in our schools and colleges for the highest physical development. Vision is the most important sense by which we hold communion with the external world. Education imposes a great tax on this organ; weak eyes are becoming one of the prices of an education, largely through ignorance of the proper care of them. The eyes and ears of all children should be carefully examined when they first enter the public schools, because a large per cent of defects exist, which if discovered and corrected early in life, will not only rescue many from a dull and listless career, but often save precious lives.

We hope by instructing our future teachers in this important subject, to fit them for a systematic examination of the school children of the future. Dr. Carpenter will deliver several lectures during the session on this subject.

Domestic Science

The management of households is the occupation of a large majority of women: hence, we believe all girls should prepare themselves for this important part of their life's work.

We have, therefore, established a department of Domestic Science, thus adding to the usual list of studies one which a girl is usually called upon, at some time in her life, to put into practice. A knowledge of scientific house-keeping will no doubt result in as much comfort and happiness to a woman as any other part of her education.

The course consists of a scientific and comprehensive study of cooking, theoretical and practical. It is designed to teach not only **how** to cook, but **what** to cook and **why**. Special attention is given to the study of the principles of nutrition, the composition, food value, cost and digestibility of foods; how to plan meals that will furnish the most nourishment for the least money and, at the same time be attractive and appetizing; how to select food that will produce the best development of individuals, mentally, morally and physically,—for we are very much what our food makes us.

The practical side of the subject, which trains the hand to keep place with the brain, will include the preparation of various dishes—breads, meats, soups, eggs, salads, desserts, etc.—the

study of marketing,—study of the principles underlying the cookery of different food stuffs—the planning of menus and serving of meals.

A modern school kitchen will be equipped. The classes will meet for a period of one and one-half to two hours twice a week.

The course is designed to develop the mind through the hand and to give scientific training for the work of the home. Study is necessary for the other professions, is it any the less important in the profession of home-making? All young ladies and housekeepers are invited to join the classes.

Societies

There are in the College two Literary Societies, which afford a wide scope for original work, for application of the knowledge gained in the courses of study, and for literary development.

There is also an Alumnae Association which meets annually during Commencement, and is composed of all the full and partial graduates of the College.

The Chicora Clarion

The Chicora Clarion is a handsome, illustrated periodical, which is edited annually by the student-body.

Lectures and Concerts

It is the purpose of the College management to provide, on suitable occasions during the session, good lectures, concerts and other entertainments of a literary character. It is believed that these constitute no small factor in the development of mental and moral culture, besides furnishing needed recreation and enjoyment to the pupils.

Social Features

At stated times the drawing-rooms of the College are thrown open, and the young ladies and

teachers receive their friends. These occasions are pleasant breaks in the routine of college life, and also are most valuable in cultivating ease and grace in society.

Prizes

A copy of the Bible is given to the pupil who attains the highest average grade in the School of Bible in the Freshman, Sophomore and Junior classes.

First and second spelling prizes are offered in the spelling classes maintained in the College.

Roll of Distinction

The names of pupils making a general average grade of 95 for the entire session are placed on a Roll of Distinction, which is read publicly at Graduating Exercises and published in the Catalogue.

Medals

The following medals are offered for the next session:

I. The Scholarship Medal, offered by the President to the graduate in the College of Liberal Arts and Sciences who attains the highest average grade on all the studies prescribed for the Sophomore, Junior and Senior Classes.

2. A Science Medal, offered by Dr. C. C. Jones to the pupil who makes the highest grade in the School of Natural Science on Physiology, Chemistry, Physics and Astronomy.

3. An English Essay Medal, offered by Hon. A. H. Dean to the writer of the best English essay.

4. A Music Medal, offered by W. L. Gassaway, Esq., to the pupil who makes the most rapid progress in music during the session.

5. A Music Medal, offered for excellence in Piano.

6. A Music Medal, offered for excellence in Singing.

7. An Art Medal, offered by Avery Patton, Esq., to the pupil who makes the greatest improvement in art during the session.

8. An Elocution Medal, offered by H. Endel, Esq., to the pupil who makes the greatest improvement in elocution during the session.

Degrees and Testimonials

The Board of Trustees, upon the recommendation of the President and Faculty of the College, being authorized by law, will confer the following meritorious and honorary certificates and diplomas:

1. **Certificate of Proficiency.**—A Certificate of Proficiency is awarded to every pupil who com-

pletes all the studies prescribed for any one school or several schools.

2. Diplomas of Graduation.

(1) A diploma is awarded to every pupil with the degree of Baccalaureate of Literature who completes the studies prescribed for this degree on page 37.

(2) A diploma is awarded to every pupil with the degree of Baccalaureate of Science who completes the studies prescribed for this degree on page 36.

(3) A diploma is awarded to every pupil with the degree of Baccalaureate of Arts who completes the studies prescribed for this degree on page 34.

(4) A diploma is awarded to every pupil with the degree of Associate of Music who completes the studies prescribed for this degree on pages 58, 59. A course will also be offered leading to the degree of Baccalaureate of Music.

(5) A diploma is awarded to every pupil with completes the studies required for graduation in either the College of Art, the College of Expression, the College of Physical Culture, or the College of Business.

Pupils who take Music, Art, Expression, Physical Culture or Business as a specialty, with a view to graduation in these Colleges, are required to complete the studies prescribed for the Freshman and Sophomore Classes in the Schools

of Bible, English and History in the College of Liberal Arts and Sciences.

Boarding pupils who take Music, Art, Expression, Physical Culture or Business as a specialty, without a view to graduation in these Colleges, are required to take three schools in the College of Liberal Arts and Sciences.

Pupils who take Vocal Music as a specialty, with a view to graduation, are required to complete the studies prescribed for the Freshman, Sophomore and Junior Classes in the Schools of Bible, English and History, and also to study French and German for one session.

Expenses for the Entire School Year

Session of 1907-1908.

Boarding Pupils

(A) Tuition for a Degree Course, Board, Furnished Room, Heat, Light, Bath, Servant's Attendance and Medical, Contingent, Infirmary and Reading Room Fees... ..\$183.00

(B) Tuition in Instrumental or Vocal Music,* Art,† or Elocution, Board, Furnished Room, Heat, Light, Bath, General Servant's Attendance and Medical, Contingent, Infirmary, and Reading Room Fees‡ \$183.00

(C) All Included in Proposition (A) and Tuition in Instrumental or Vocal Music,* Art† or Elocution \$203.00

(D) All Included in Proposition (A) and Tuition in Business Course\$218.00

Harmony, Theory, Music History, Use of Piano, Organ, and use of Organ as per list below.

*If Lessons under Director, or in 5th and 6th Grades in Vocal, add \$10; and if in 5th and 6th Grades in Piano add \$20.

†Either Painting, Pyrography or Photography.

‡Add \$10.00 per Branch taken in the Literary Department.

Day Pupils

Tuition and Fees in the Primary Department... ..\$ 25.00

Penmanship	10.00
Graduation Fees:—	
Certificate	\$ 2.50
Diploma	5.00
There is no charge for Ancient or Modern Languages, Chorus Singing, or General Elocution.	

Other General Expenses

1. The Oxford Cap and Winter Uniform will cost about \$16.50.

2. The College has no laundry, but careful and honest washerwomen are employed to do laundry work for the pupils at a charge of \$1.60 a month. A deposit for this should be made with the President at the beginning of each term.

3. Books, sheet music, art materials, etc., will cost from \$5 to \$10 per session. A deposit for this expense should be made with the President at the beginning of each term.

4. Parents may allow their daughters whatever amounts they wish for private use, but we earnestly advise that these amounts be not excessive. Chicora is not an expensive College, and it should not be held responsible for the personal extravagance of a pupil.

5. Students in Chemistry, Biology and Physics will be required to pay a laboratory fee of \$2 for material used.

Business Notes

1. The College must be conducted on business principles, of course; hence, parents and guardians may expect bills to be rendered and prompt payments required, as in any well-conducted commercial enterprise.

2. The enrolment of a student's name as a pupil in the College shall be deemed a formal and explicit contract for her to remain to the end of the scholastic year.

3. All charges are to be paid quarterly in advance.

4. No diploma, certificate, or other mark of distinction will be awarded any pupil until all charges have been paid in full.

5. Pupils matriculating during the first month of a term are charged as from the first day of the term. After that time they are charged as from the date of entrance.

5. Teachers and pupils entertaining friends at the College for more than one day will be charged at the rate of \$1.00 per day.

7. The College cannot advance money to the pupils for any object.

8. No deduction from any charges will be made for holidays.

9. No deduction from any charges will be made for the loss of time except in case of illness longer than two weeks. For absence by reason of illness there will be a deduction by the two weeks for Board of \$5.00 and by the quarter for Tuition and Fees of \$10.00. In the event of sickness a certificate must be presented from either the College or family physician, stating that the pupil is incapacitated for attendance upon school duties.

10. No deduction from any charges will be made for the withdrawal of a pupil during a quarter, except in case of protracted sickness—when the physician in attendance pronounces it necessary.

The justice of this regulation is obvious from the following facts: The College obligates itself to furnish the advantages offered in the Catalogue for the Scholastic Year; the officers and teachers are employed and all arrangements made for the entire session; and as we may not be able to accommodate all who apply for admission, the reception of one pupil may prevent the reception of another who would remain for the whole session. When the withdrawal is for sickness the charges will be deducted at the regular rate per month.

11. No deduction from any charges for any cause will be made to students withdrawing during the last four weeks of the session.

12. A discount of 10 per cent. on total bills

will be made where two or more pupils come from the same family.

13. To ministers regularly engaged in their calling free tuition in the Literary Department will be given.

14. Make all drafts, checks and money orders payable to S. C. Byrd, President.

15. Address all communications to Rev. S. C. Byrd, D. D., Chicora College, Greenville, S. C.

Some of the Needs of the College

1. Books and money for the Library.
2. A Gymnasium.
3. Additional equipments for the Laboratories.
4. Scholarships in the shape of yearly contributions of \$100.00.
5. Scholarships in the form of permanent endowments in amounts of \$1,000, \$2,000, or more.
6. Gifts, devices and bequests for the general permanent endowment funds.

These benevolent objects are earnestly commended to the prayerful consideration of God's people. Friend, the cause for which we ask the above gifts is worthy, will you not be one to make a gift?

Form of Bequest

I give, devise and bequeath to the "Board of Trustees of Chicora College," the sum of
 dollars, to be applied by
 the said Board to the uses of said College for
 (here state the purpose).

Degrees Conferred

May 29, 1907.

Baccalaureate of Arts.—Ella Lucile Barr, Nannie Isabel Boggs, Emma May Hicks, Edena Ezelle Hicklin, Lucy Sloan Poe, Lalla Reynolds, May Cureton Wyatt.

Baccalaureate of Science.—Grace Brogdon, Pauline Essie Ellison, Carrie Mason Floyd, Bessie Hitch, Ora Dell Hunter, Ella Estelle Sheppard.

Baccalaureate of Literature.—Hattie Louise Brownlee, Ad-dis Stafford Carr, Annie Leila Fowler, Florence Jacqueline Jenkins, Eva Blanche James, Rosa Virginia Poole, Cornelia Gertrude Plowden, Mary Belle Scott.

Associate in Music.—Grace Brogdon, Eva Blanche James, Lenoir Adell Jones.

Diploma in Expression.—Theodora Brevard Hayne.

Certificate of Proficiency.—In Bible, English, History and Philosophy, Mattie Burgess Appelt; in English and Philosophy, Zula Belle Hitch; in Bible and English, Lenoir Adell Jones; in Bible and Philosophy, Rebecca Pretto Palmer.

Bible Prizes.—Lalla Ballenger, Lalla Reynolds.

Spelling Prizes.—First: Elizabeth Williams.

Second: Helen Thackston.

Medals

May 29th, 1907.

Scholarship Medal, to Miss Lalla Reynolds.
 Science Medal, to Miss Carrie Floyd.
 English Essay, to Miss Lalla Reynolds.
 Improvement in Music, to Miss Annie Kilgore.
 Improvement in Music, to Miss Mary Starr.
 Excellence in Piano, to Miss Pearle Smith.
 Endel Elocution Medal, to Miss Flossie Jenkins.
 Endel Elocution Medal, to Miss Marian Frazier.
 Improvement in Art, to Miss Edyth Jackson.
 Excellence in Vocal Music, to Miss Lenoir Jones.
